Dear Hiring Manager,

**APPLICATION FOR ENTRY LEVEL IN ENGINEERING**

Referring to the above matter, I would like to apply for the entry level position in your company. The reputation and promising profile in your company are very appealing, in which that I believe that I would gain the valuable experience and to further my career.

2. I am graduated from Universiti Malaysia Perlis (UniMAP) in Bachelor (hons) Mechanical Engineering. I strongly assure you that I am the kind of person who has strong commitments to my responsibilities and can easily incorporate with each other people. I am optimistic and flexible to any situation, a good problem solver and willing to face any challenges that may arise. I work with integrity, gratitude and punctuality as those are the main principles in my life. I am very adaptive to change and manage to work well under pressure.

The strength and personal achievement that your company can leverage on me are:

- a. **Industrial Training:** I was selected to undergo 3 months industrial internship training at Asia Slipway and Engineering Sdn Bhd.
- b. **Final Year Project:** Ceramic Coating Fracture Analysis of Dental Implant.
- c. **Personal Quality:** Willing to travel, had undergone stress working environment, easily to cooperate with new people and willing to work in extreme condition at site.

Please refer to my attached resume for additional information. Should you require any clarification or further information in addition to my resume please contact me via my mobile phone. I will be able to attend an interview at your convenience and I am looking forward to hear from you soon.

Thank you for your time. Your cooperation and consideration are highly appreciated.

Your sincerely,

---

NUR HIDAYAH BINTI ISMAIL

Bachelor (Hons) in Mechanical Engineering

University Malaysia Perlis (UniMAP)
