ABOUT ME

I am a 20 year old student, currently taking a Diploma in Sustainable Energy and Power Distribution at German-Malaysian Institute, looking for a 4 months session of internship in renewable energy field. I would like to utilize my skills and experience as well as my passion to work in this industry, which will allow me to further contribute in the field of engineering. Hence, I am willing to learn anything related to this field for the purpose of my upcoming Final Year Project.

EDUCATION

**German-Malaysian Institute Bangi,
Selangor, Malaysia.**

- Diploma In Engineering Technology Sustainable Energy and Power Distribution. (2015-2018)
- Current CGPA of 2.60

SMK ALOR AKAR

- Sijil Pelajaran Malaysia
- Penilaian Menengah Rendah

LANGUAGES

English

Malay

INTERESTS

I love to try something new in a term of practical because it helps me to improvise my critical thinking skill. Plus, I chose to be in this field because I believe renewable energy will be highly demand in the future and the opportunity is high for me to continue in this field.

SKILLS

- Good in controlling AC/DC motor
- Proficient in Programmable Logic Controller
- Excellent in using sensors
- Really good in wiring electric circuit
- Ability to work independently and as a team
- Proven teamwork skills
- Well communication skills

AWARDS

- Won 3rd place in Young Creators Competition.

COMMUNITY INVOLVEMENT

**Al-Kautsar Orphanage
Volunteer**

Introduced the orphans about Floorball sport and teach them how to play. Other than that, I did cleaned the orphanage and cook with them, organized a mini Floorball tournament and the most important is, I drew a smile on their face.
