#### 2.2 Application of FRSs

#### (a) FRS 101: Presentation of Financial Statements (FRS 101)

FRS 101 separates owner and non-owner changes in equity. Therefore, the current consolidated statements of changes in equity only includes details of transaction with owners. All non-owners changes in equity are presented as a single line labelled as total comprehensive income. Comparative information, with exception of the requirements under FRS 139, had been re-presented so that it is also in conformity with the revised standard. This standard does not have any impact on the financial position and results of the Group.

#### 2. SIGNIFICANT ACCOUNTING POLICIES (Cont'd.)

#### 2.2 Application of FRSs (Cont'd.)

## (b) FRS 139: Financial Instruments - Recognition and Measurement (FRS 139)

FRS 139 sets out the new requirements for the recognition and measurement of the Group's financial instruments. Financial instruments are recorded initially at fair value. Subsequent measurement of the financial instruments in the statement of financial position reflects the designation of the financial instruments. The Group determines the classification at initial recognition and for the purpose of the first adoption of the standard, as at transitional date on 1 January 2010.

#### Financial assets

Financial assets are classified as financial assets at fair value through profit or loss, loans and receivables, held to maturity investments, AFS financial assets, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

The Group's financial assets include cash and short-term deposits, loans and receivables, held to maturity investments and FIFVPL investment.

#### (i) Loans and receivables

Prior to 1 January 2010, loans and receivables were stated at gross receivables less provision for doubtful debts. Under FRS 139, loans and receivables are initially measured at fair value and subsequently at amortised cost using the effective interest rate (EIR) method. Gains and losses arising from the derecognition of the loans and receivables, EIR amortisation and impairment losses are recognised in the income statement.

Prior to 1 January 2010, unquoted structured investments and redeemable cumulative preference shares were stated at cost. Under FRS 139, the investments are initially measured at fair value and subsequently at amortised cost using the effective interest rate (EIR) method. The classification as held to maturity is optional and can only apply to instrument with maturity dates.

## (iii) Financial Instruments at Fair Value through Profit or Loss (FIFVPL)

Prior to 1 January 2010, FIFVPL financial asset such as portfolio investment was stated at cost. Under FRS 139, FIFVPL financial asset is initially measured at fair value at each reporting date and subsequently with unrealised gain or loss recognised in the income statement.

#### Financial liabilities

Financial liabilities are classified as financial liabilities at fair value through profit or loss, loans and borrowings, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.
